

Special Opportunities Fund, Inc.

April 30, 2026

19a-1 Notice

Special Opportunities Fund, Inc. (the “Fund”) announced that the Board of Directors has approved a Managed Distribution Plan (MDP). Under the MDP, the Fund will make monthly distributions to common stockholders at an annual rate of 8% (or 0.6667% per month), based on the net asset value (NAV) of the Fund’s common shares as of December 31, 2025. On April 30, 2026, the monthly distribution under the MDP of \$0.1087 per share will be paid to stockholders of record on April 21, 2026.

As a general matter, the amount of distributable income for each fiscal year depends on the aggregate gains and losses realized by the Fund during the entire year. Distributions may consist of net investment income, capital gains and return of capital, but the character of these distributions cannot be determined until after the end of the Fund’s fiscal year.

The Fund estimates that this distribution will exceed its income and capital gains; therefore, a portion of this distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with ‘yield’ or ‘income’.

Under the Investment Company Act of 1940 (the “1940 Act”), any distribution made by an investment company, including amounts from sources other than net income must be accompanied by a written statement disclosing the source or sources of such distribution.

The following table sets forth an estimate of the sources of the April 30, 2026, distribution and of distributions paid in the current fiscal year:
